TERMINAL DISCLAIMER UNDER 37 C.F.R. 1.321(b)

Commissioner for Patents
P. O. Box 1450
Alexandria, Virginia 22313

Sir or Madam:

In response to an Office Action dated June 27, 2005, applicant, through their attorneys, submit the subject Terminal Disclaimer Under 37 C.F.R. §1.321(b). Applicant notes the Examiner's statement that a timely filed terminal disclaimer may overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. The undersigned attorney submits on behalf of applicants, Kenji Asakura, Hidenobu Muranaka, Shuichiro Yasuda and assignee, Sony Chemicals Corporation, a terminal disclaimer showing common ownership of the subject patent application and issued Patent No. 6,940,458.

On behalf of applicant and assignee, the undersigned attorney represents that assignee owns the entire right, title and interest in the subject matter disclosed in the above-identified patent application. The undersigned attorney also represents that assignee owns the entire right, title and interest in the subject matter disclosed in U.S. Patent No. 6,940,458.

Applicant and assignee hereby disclaim the terminal part of any patent granted on the above-identified patent application which would extend beyond the expiration date of any patent granted on commonly owned patent application Serial No. 10/721,671 filed on November 25, 2003 and issued as Patent No. 6,940,458.

Applicant and assignee acknowledge that any patent granted on the subject application shall be enforceable only for and during such period that said patent application is commonly owned with any patents granted on commonly-owned patent application Serial No. 10/721,671 filed on November 25, 2003 and issued as Patent No. 6,940,458.

Applicant and assignee do not disclaim any terminal part of any patent granted on the above-identified patent application prior to the expiration date of the full statutory term of any patent granted on Serial No. 10/721,671 filed on November 25, 2003 and issued as Patent No. 6,940,458 in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims cancelled by reexamination certificate, or is otherwise terminated prior to expiration of its statutory term except for the separation of legal title stated above.

Applicant and assignee acknowledge that any patent granted on subject patent application serial No. 10/694,598 or any patent subject to reexamination proceedings shall be enforceable only for and during such period that said patent is commonly owned with the patent application serial no.

10/721,671 filed on November 25, 2003 and issued as Patent No. 6,940,458, which formed the basis for the rejection.

A check in the amount of \$110.00 as the disclaimer fee pursuant to 37 C.F.R. §1.20(d) is enclosed.

The Commissioner is hereby authorized to charge any deficiency in the required fee or to credit any overpayment to Deposit Account No. 23-0920. A duplicate copy of this document is enclosed.

Respectfully submitted,

WELSH & KATZ, LTD.
